THROUGH A PARENT'S EYES: THE TRANSFORMATIVE IMPACT OF OUR SCHOOL

NICO

At just two years old, Nico is a happy, curious boy who loves sports, cars, and all things Toy Story. Born profoundly deaf, he received cochlear implants at ten months and now communicates in both spoken language and ASL. Through CCCBSD's Parent Infant Program, home visits, and time with his Deaf mentor, Danny, Nico's world has opened in remarkable ways. From signing his first word to walking into class with confidence, every milestone reflects the care, connection, and community helping him thrive as his joyful, determined self.

OLIVE

Ten-year-old Olive is a ray of sunshine who loves animals—especially ducks! Living with Chromosome 9p Minus Syndrome brings challenges, but CCCBSD has helped her grow from limited communication and self-injurious behaviors into a confident, social student who expresses herself using AAC, ASL, and spoken language. With the care of teachers, therapists, and staff, Olive thrives in a safe, nurturing community where she can shine.

LIAM

Liam, 21, has Down syndrome and several additional diagnoses, including Hirschsprung's, Celiac, Thyroid disease, and Gestalt language processing. With CCCBSD's individualized support—especially from the speech department—he has flourished, gaining confidence, independence, and social skills through pre-teaching, community outings, and a nurturing environment. CCCBSD has not only supported Liam's growth but also built a community where families are understood and empowered.
